Education

Kalinga Institute of Industrial Technology Deemed to be University

Oct. 2021 – May 2025(expected)

Bachelor of Technology in Computer Science

Bhubaneswar, Odisha

CGPA-9.26

Technical Skills and Interests

Languages: Java, Python, HTML, CSS, JavaScript, SQL

Databases: MongoDB, Relational Database(MySQL)

Frameworks: React, Bootstrap5

Libraries: OpenCV, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Keras, TensorFlow

Developer Tools: VS Code, PyCharm, IntelliJ IDEA, Git

Relevant Coursework: Data Structures, Algorithms Analysis, Software Methodology, Database Management System, Operating System, Object Oriented Programming, Computer Networks, AI/ML

Projects

Portfolio | HTML, CSS, JavaScript

May 2024

Code link- <https://github.com/Sreejane/My-PortFolio>

Website link- <https://sreejane.github.io/My-PortFolio/>

- Designed and developed a personal portfolio to showcase projects and skills.
- Focused on responsive design and user-friendly navigation.

Realtime Facial Emotion Detection | Python, Numpy, Pandas, Keras, OpenCV, Flask

April 2024

Code link- <https://github.com/Sreejane/MoodScan-A-Face-Emotion-Detection-Web-App>

- Implemented a convolutional neural network (CNN) using Keras for emotion detection. Utilized OpenCV for real-time face detection and image preprocessing.
- Integrated the model into a Flask web application to provide a user-friendly interface. Users can upload images or use their webcam to get real-time emotion detection.

American Sign Language Detection | Python, Numpy, Pandas, Keras, OpenCV, scikit-learn, Matplotlib

Feb 2024

Code link- <https://github.com/Sreejane/American-Sign-Language-Detection->

- Developed a system to detect and classify American Sign Language (ASL) gestures using images. Created a custom dataset with approximately 400 images for each sign (A-Z and 0-9) using OpenCV.
- Implemented a deep learning model to classify ASL signs with an accuracy of 98 percent.

Twitter Sentiment Analysis | Python, NumPy, Pandas, scikit-learn, NLTK, Seaborn, Matplotlib.

December 2023

Code link- <https://github.com/Sreejane/Twitter-Sentiment-Analysis>

- Developed a sentiment analysis model to classify tweets as positive or negative.
- Utilized various libraries for data preprocessing, feature extraction, and model training

Hackathon

Code For Good Certificate

July 2023

Finalist @CFG2023 JP Morgan Chase & Co

- Worked in a team to design a game to educate children about health and Yoga.
- Developed the user authentication and Login page of the website using JWT Authentication, MongoDB, ExpressJS, NodeJS.
- Fostered open communication and collaboration, encouraging active participation and creating an enriching working environment.

Certifications

Generative AI for Beginners [Certificate](#)

CodeKaze- Sep'23 Round 2 [Certificate](#)

CodeKaze-Sep'23 Round 1 [Certificate](#)

Hackerrank Problem Solving(Basic) [Certificate](#)

Hackerrank Problem Solving(Intermediate) [Certificate](#)
